SUMMIT
27-29 October 2015
ROME, Italy

IoT360° SUMMIT

The IoT360° is a unique event bringing a 360 degree perspective on IoT-related projects and activities and aiming to coach involved people on the whole path between research to innovation and all the way through to commercialisation of ideas, projects and technologies.

The Summit is a powerful and inspirational event that brings together industry representatives, makers, vendors, experts, developers and others to plan, learn, network, collaborate, strategize and more effectively tap into the immense potential of the IoT domain.

IoT360° OPPORTUNITY

Learn about IoT

Share real experiences

Meet experts

Develop and monetize

IoT360° PROGRAM

Sessions of IoT360° Summit will be spread across three day program and will be divided in three tracks:

Technology track
Standardization | National IoT initiatives | Data processing | Industry Leaders

Innovation track
Idea to market | Technology transfer | Fundraising | IP in IoT

Community track
Involved actors will share research plans, kick-start initiatives, formulate new projects

Workshops & Co-located scientific conferences
